

# TECHNICAL DATASHEET

## 6 Holes PDU Universal Socket with AV6 Meter Input Ceeform, 16A

Input : Ceeform, 16A

Output : (6) GB2099.3-1

Cable : 3G\*2.5 mm<sup>2</sup>\*3m

Max. Power : 4000 Watt

| Specification             |                                                    |                              |
|---------------------------|----------------------------------------------------|------------------------------|
| Brand                     | YURRO                                              |                              |
| Product Name              | Power Distribution Unit                            |                              |
| Part Number               | Y-E6-6-4                                           |                              |
|                           |                                                    |                              |
| Physical                  |                                                    |                              |
| Case                      | Aluminium alloy coated Black                       |                              |
| Power Input               | Left single input                                  |                              |
| Bracket Install           | 19inch Horizontal installation                     |                              |
| Product Size              | L x W x H = 482.6 x 44.5 x 62mm                    |                              |
| Mounting Length           | 459.6 mm                                           |                              |
| Mounting Style            | 2 ends Brakets                                     |                              |
| Fittings                  | 4 pcs cross screw ( φ 6 x 16mm), 4pcs M6 float nut |                              |
| Output                    |                                                    |                              |
| Socket Type               | GB2099.3-1                                         |                              |
| Socket Unit               | 6 x GB2099.3-1                                     |                              |
| Max. Ouput Current        | 10A                                                |                              |
| Input                     |                                                    |                              |
| Cable with Plug           | Ceeform, 16A                                       |                              |
| Cable Spesification       | 3G*2.5mm²*3M                                       |                              |
| Rating Voltage            | 220 - 250VAC 50 - 60 Hz                            |                              |
| Rating Current            | 16A                                                |                              |
| Max. Current              | 16A                                                |                              |
| Max. Power                | 4000 watt                                          |                              |
| Control Function          |                                                    |                              |
| AV6                       | . Monitor input voltage                            | . Monitor total load current |
